

# WHAT DOES A WELCOMING COMMUNITY LOOK LIKE AND HOW DO WE HELP CREATE IT?

## About Us

At the Urban League of Greater Pittsburgh Family Support Centers, we are customer focused, while continuously improving our programs and services.

Through teamwork in a caring environment, we assist with the empowerment of the Center's participants and community.

Our program/ component focuses on any family that resides in the Northview Heights, East Hills or City of Duquesne or West Mifflin areas with children ages 0-5. We require active parent participation in in-home parent education, child development and attend center-based activities.
